### ADVICE

Have a goal and work very hard to achieve it.

To all the students: Try to do things that will not make your parents feel bad.

I advise all those who are not married to abstain from sex. You will make it.

Always count your good deeds every morning and think positively about your life, putting God first in everything that you do and thanking him for your life. For he is the reason why you are living. Do not close your book when something bad happens in your life. Open another page to start a new chapter. Seek for people's advice but never allow them to decide for you, make your own decision about what you want or feel like. And you should also know that in this world, life without education is an unfulfilled life. Success has many producers and one of them is discipline + determination = success. Good luck to you all....

### DON'T WASTE TIME

Most of us think that time is nothing,  
Whereby we waste it in doing other things  
Like watching movies and making fun in class  
When the teacher is going out.

You say: Fellow students, it's time you stop wasting time.

We should know that time is expensive and it will never be regained once wasted.  
Use time as one of the riches in life by doing the right things at the right place, for  
it's the only thing that opens the doors to success.

Remember, time is money, it waits for nobody and once lost, it can never be  
regained.

## AUMA MOUREEN, NINM

As we were from the garden one morning, we heard a motorcycle park in our compound. The good news had finally knocked on our door. It was the PCE team! I had been chosen to take on sponsorship at the project! I had stayed home while other students went to school... I did not know what to do, despite my burning desire to join my mates as they went to school.

Aunt Beatrice came to give me the news that I was going to start school the next week! It was like a dream come true! I will never forget the feeling that flew through me that day...

Thank you PCE for choosing me. Who am I to deserve such a huge favor...to be put through school by such kind hearted people!

**APPRECIATION:** I thank God for this moment of life together with my friends. I thank Aunt Beatrice too for what she has done for me and others. Because of her and Aunt Stephanie, I have been able to go to school. I am glad that because of this project, I am now exposed to the world - like Australia, Germany, UK, USA, so I thank God for that.

### ADVICE

You should always be creative in whatever you're doing and always remember to think before talking any single step.

Dreaming is very important towards your success, and never leave God. Remember he is the provider of everything we want.
